INDEPENDENT AUDITOR'S REPORT

October 27, 2006

To the Library Board
Dexter District Library
Washtenaw County, Michigan

We have audited the accompanying financial statements of the governmental activities and each major fund of Dexter District Library, Washtenaw County, Michigan as of and for the year ended September 30, 2006, which collectively comprise the Library's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Dexter District Library's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Dexter District Library, Washtenaw County, Michigan as of September 30, 2006, and the respective changes in financial position thereof, for the year ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis and budgetary comparison information listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the year ended September 30, 2006

This section of the Library's annual financial report presents our discussion and analysis of the Library's financial performance during the fiscal year ended September 30, 2006. Please read it in conjunction with the financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

Our financial status dramatically increased during the course of the year. In November, 2005, the community passed two new tax issues to support the Library. The community approved a 20-year bond issue in the amount of \$7,835,000.00 for the purpose of constructing a new Library building. The community also approved an additional operational millage of .7 mills for a period of six years. As a result, the Library now operates a General Fund, Capital Projects Fund, and a Debt Service Fund.

Total assets of September 30, 2006 were \$9,675,885.28, of which \$1,634,737.67 represented capital assets net of depreciation.

Overall general operations revenues were \$1,935,411.61. Overall operational expenses were \$1,988,678.86.

The tax base increased by 4.7%.

Voters in the Library service area authorized the Library to incur \$7,835,000.00 in debt (total 20-year repayment with interest \$11,470,240.89) during the year. This money will fund construction of a new Library facility. The Library purchased significant capital assets during the reporting year. These included three residential properties, located within the Central Buisness District in the Village of Dexter.

OVERVIEW OF FINANCIAL STATEMENTS

This annual report consists of three parts, management's discussion and analysis, the basic financial statements and required supplementary information. The basic financial statements include two different kinds of statements that present different views of the Library and the notes to the financial statements.

The first two statements are entity-wide financial statements and present both long and short-term information about the Library's overall financial status. These statements present governmental activities.

The remaining statements are fund financial statements, which focus on individual parts of the Library in more detail.

The notes to the financial statements explain some of the information in the statements and provide more detailed data. Required supplementary information further explains and supports the financial statement information with budgetary comparisons.

ENTITY-WIDE FINANCIAL STATEMENTS

The entity-wide statements report information about the entity as a whole using accounting methods used by private companies. The statement of net assets includes all of the Library's assets and liabilities. The statement of activities records all of the current year revenues and expenses regardless of when paid or received.

The two entity-wide statements report net assets and how they have changed. Net assets are the difference between the Library's assets and liabilities and this is one method to measure the entity's financial health or position.

Over time increases/decreases in the Library's net assets are an indicator of whether financial position is improving or deteriorating.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the year ended September 30, 2006

ENTITY-WIDE FINANCIAL STATEMENTS (continued)

To assess overall health of the Library consideration must also be given to other factors such as tax base changes, facility conditions and personnel changes.

All of the Library's activities are reported as governmental activities. At this time, the Library has a general fund, capital projects fund, and a debt service fund.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the Library's funds, focusing on significant (major) funds not the Library as a whole. Funds are used to account for specific activities or funding sources. Some funds are required by law or bond covenants. The Library Board may also create funds for specific purposes. Funds are established to account for funding and spending of specific financial resources and to show proper expenditures of those resources.

The Library has the following types of funds:

Governmental Fund: All of the Library's daily business and service activities are included in the general fund category. These funds are presented on the modified accrual basis, which is designed to show short-term financial information.

Capital Projects Fund: Construction of a new Library building is funded from this account. These funds are presented on the modified accrual basis, which is designed to show short-term financial information.

Debt Service Fund: Bonds issued to fund the construction project are repaid from this account. These funds are presented on the modified accrual basis, which is designed to show short-term financial information.

FINANCIAL ANALYSIS OF THE LIBRARY AS A WHOLE

The Library's combined net assets for the year ended September 30, 2006, were \$2,003,340.70. This represents a net appreciation of assets of 166% from the previous year. The bulk of the increase was due to the purchase of three residential properties located in the Central Business District of the Village of Dexter for the construction of a new Library facility. Original purchase values were estimated in cases where the original purchase price for an individual assets was not available.

Net assets for the Library increased by \$1,248,717.02 during the year ending September 30, 2006.

FINANCIAL ANALYSIS OF THE LIBRARY'S FUNDS

General Fund: This fund is used to record all the Library's financial activities not required to be recorded in a separate fund. The major source of revenue for this fund comes from the Library District's tax base. Additional sources of revenue in the General Fund come from State aid, local penal fines, fees for in-house services such as copying, overdue fines, grants, interest income and gifts.

Capital Projects Fund: This fund is used to record all the Library's financial activities related to the design and construction of a new Library building. The major source of revenue for this fund came from the voter approve issuance of unlimited tax general obligation bonds. Additional sources of revenue in the Capital Projects Fund included public gifts and earned interest.

Debt Service Fund: This fund is used to record all the Library's financial activities associated with the repayment of bonded debt. The major source of revenue for this fund comes from the Library District's tax base. Additional sources of revenue in the Debt Service Fund come from earned interest on invested funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the year ended September 30, 2006

CAPITAL ASSET AND LONG-TERM DEBT ACTIVITY

Capital Assets: The Library purchased three residential properties, located in the Central Business District within the Village of Dexter. This land acquisition will provide the Library with a location to construct a new Library facility.

Long-Term Debt: The Dexter District Library issued \$7,835,000.00 in unlimited tax general obligation bonds at a 4.04068% true interest cost and a total 20-year total repayment of \$11,470,240.89.

KNOWN FACTORS AFFECTING FUTURE OPERATIONS

On November 8, 2005, the Library placed two ballot issues before the voters residing in the Library's service district. These issues included a 20-year bond issue of \$7.835 million for construction of a new facility and a second ballot issue of 0.7 mills for six years for increased operating funds. Voters approved both issues. The Library levied both issues on the December 2005 taxes. Subsequent to the election, the Library finalized the purchase of three residential properties, applied for conditional rezoning, worked with its architectural firm to design the new facility and began the planning and zoning process. The new facility is planned to be 25,000 square feet. Construction is expected to begin in spring 2007.

CONTACTING THE LIBRARY'S MANAGEMENT

This financial report is designed to provide our taxpayers, creditors, investors and customers with a general overview of the Library's finances and to demonstrate the Library's accountability for the revenues it receives. If you have any questions regarding this report, please contact Paul McCann, Dexter District Library Director at 8040 Fourth Street, Dexter, Michigan, 48130, phone 734-426-4477 between the hours of 9:00 AM and 5:00 PM Monday through Friday.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUND TO THE STATEMENT OF ACTIVITIES Year ended September 30, 2006

NET CHANGE IN FUND BALANCE - TOTAL GOVERNMENTAL FUND

7 704 424 65

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures; in the Statement of Activities, these costs are allocated over their estimated useful lives as depreciation

Depreciation Expense (12 505 00)
Capital Outlay 1 217 847 27

Increase in non-current liability for compensated absences payable is an expense in the statement of activities but is not an expenditure in the governmental funds

(1 049 90)

Receipt of debt proceeds is a financing source in the governmental funds, the receipt does not have an effect in the statement of activities but does increase the debt balance in the statement of net assets

Bond proceeds (7 835 000 00)

Repayment of debt principal is an expenditure in the governmental funds, the repayment does not have an effect in the statement of activities but does reduce the debt balance in the statement of net assets

Principal payments on long-term debt

175 000 00

CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES

1 248 717 02

NOTES TO FINANCIAL STATEMENTS September 30, 2006

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Dexter District Library, Washtenaw County, Michigan, conform to generally accepted accounting principles as applicable to governmental units.

Reporting Entity

The financial statements of the Library contain all the Library funds that are controlled by or dependent on the Library's executive or legislative branches.

The reporting entity is the Dexter District Library. The Library is governed by an elected Library Board. As required by generally accepted accounting principles, these financial statements present the Library as the primary government.

Government-Wide and Fund Financial Statements

The government-wide financial statements, (the Statement of Net Assets and the Statement of Changes in Net Assets) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All the Library's government-wide activities are considered governmental activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments and other items not properly included among program revenues are reported as general revenue.

Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, restricted resources are applied first.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

NOTES TO FINANCIAL STATEMENTS September 30, 2006

Note 1 – <u>Summary of Significant Accounting Policies</u> (continued)

Governmental Funds

General Fund

This fund is used to record the operations of the Library which pertain to maintaining and operating the Library. Included are all transactions related to the approved current operating budget.

Capital Projects Fund

This fund is used to account for the acquisition or construction of major capital facilities other than those financed by proprietary fund operations and special assessments.

Debt Service Fund

This fund is used to account for long-term debt transactions.

Assets, Liabilities and Net Assets or Equity

Bank deposits and investments – Cash and cash equivalent investments include cash on hand, demand deposits, certificates of deposit and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Receivables

Receivables have been recognized for all significant amounts due to the Library. Allowances for uncollectible accounts have not been provided for in that collection is not considered doubtful and any uncollected amount would be immaterial.

Inventories

Inventories of supplies are considered to be immaterial and are not recorded.

Property Taxes

Property taxes and other revenue that are both measurable and available for use to finance operations are recorded as revenue when earned.

Properties are assessed as of December 31 and the related property taxes become a lien on July 1 of the following year. These taxes are due on August 31 with the final collection date of February 28 before they are added to the county tax rolls. The Library 2005 tax roll millage rate was 1.6709 mills, and the taxable value was \$989,587,903.00.

NOTES TO FINANCIAL STATEMENTS September 30, 2006

Capital Assets

Capital assets are defined by the Library as assets with an initial cost of more than \$1,000.00 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost. Donated assets are reported at estimated fair market value at the date of donation. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Building 50 years Equipment 3-50 years

Compensated Absences (Vacation and Sick Leave)

The estimated current portion of the liability for vacation and sick leave benefits attributable to the Library's governmental funds is recorded as an expenditure and liability in the respective funds. Employees may accumulate up to one year's days of vacation leave and are not paid for unused sick leave upon termination of employment.

Post-employment Benefits

The Library provides no post-employment benefits to past employees.

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Encumbrances

Encumbrances involving the current recognition of purchase orders, contracts and other commitments for future expenditures are not recorded.

Note 2 - Budgets and Budgetary Accounting

The following procedures are followed in establishing the budgetary data reflected in these general purpose financial statements:

- Prior to the beginning of the fiscal year, the proposed budget for each budgetary fund is submitted to the Library Board for consideration.
- 2. The proposed budgets include expenditures as well as the methods of financing them.
- 3. Public hearings are held to obtain taxpayer comments.
- 4. The budgets are adopted at the activity level by a majority vote of the Library Board.
- 5. The budgets are adopted on the modified accrual basis of accounting.
- 6. The originally adopted budgets can be amended during the year only by a majority vote of the Library Board.

NOTES TO FINANCIAL STATEMENTS September 30, 2006

Note 2 - Budgets and Budgetary Accounting (continued)

- 7. The adopted budgets are used as a management control device during the year for all budgetary funds.
- 8. Budget appropriations lapse at the end of each fiscal year.
- The budgeted amounts shown in these general purpose financial statements are the originally adopted budgets with all amendments that were approved by the Library Board during the fiscal year.

Note 3 - Deposits and Investments

Michigan Compiled Laws, Section 129.91, authorizes the Library to deposit and invest in the accounts of federally insured banks, credit unions, and savings and loan associations; bonds, securities and other direct obligations of the United States, or any agency or instrumentality of the United States; United States government or federal agency obligation repurchase agreements; banker's acceptance of United States banks; commercial paper rated within the two highest classifications, which mature not more than 270 days after the date purchase; obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. Financial institutions eligible for deposit of public funds must maintain an office in Michigan.

The Library Board has designated three banks for the deposit of Library funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997 has authorized investment in all investments authorized by state law as listed above.

The Library's deposits and investments are in accordance with statutory authority.

The Governmental Accounting Standards Board Statement No. 3, risk disclosures for the cash deposits are as follows:

Amounts in the bank balances are without considering deposits in transit or uncleared checks.

The Library's investments are categorized below to give an indication of the level of risk assumed by the Library. Risk category 1 includes those investments that meet any one of the following criteria: insured, registered, or held by the Library or its agent. Risk categories 2 and 3 include investments that are neither insured nor registered. Category 2 includes investments that are held by the counterparty's trust department (or agent) in the Library's name. Category 3 includes investments held by the counterparty or the counterparty's trust department (or agent) but not in the Library's name.

NOTES TO FINANCIAL STATEMENTS September 30, 2006

Note 3 – Deposits and Investments (continued)

The GASB Statement No. 3 risk disclosures for the Library's investments are categorized as follows:

	(1)	(2)	(3)	CarryingAmount
Investment Type				
Risk-Categorized: Operating Funds		<u> </u>		
Total Risk-Categorized Investments				-
Nonrisk-Categorized: Financial Institution				
Pooled Funds				<u>7 614 269 36</u>
Total Investments			=	7 614 269 36

The financial institution pooled funds are not categorized because they are not evidenced by securities that exist in physical or book entry form. Management believes that the investments in the funds comply with the investment authority noted above.

Note 4 - Capital Assets

Capital asset activity of the Library's Governmental activities for the current year was as follows:

	Balance 10/1/05	Additions	Deletions	Balance 9/30/09
Land Building Equipment	29 533 00 421 935 00 97 124 00	791 406 04 426 441 23 	- - (4 216 00)	820 939 04 848 376 23 92 908 00
Total	548 592 00	1 217 847 27	(4 216 00)	1 762 223 27
Accumulated Depreciation	(119 196 60)	(12 505 00)	4 216 00	(127 485 60)
Net Capital Assets	<u>429 395 40</u>	1 205 342 27	<u>-</u>	<u>1.634 737 67</u>

Note 5 - Changes in Long-Term Debt

A summary of changes in long-term debt follows:

	Balance 10/1/05	Additions	<u>Deductions</u>	Balance 9/30/06
Bonds payable Compensated absences	- 11 494 68	7 835 000 00 1 049 90	175 000 00 	7 660 000 00 12 544 58
Total	<u>11 494 68</u>	<u>7 836 049 90</u>	175 000 00	7 672 544 58

NOTES TO FINANCIAL STATEMENTS September 30, 2006

Note 6 - Bonds Payable

On November 17, 2005, the Library sold \$7,835,000.00 of it's bonds to fund a new facility. The bond principal and interest is to be paid over a twenty year period. The bond principal outstanding as of September 30, 2006 was \$7,660,000.00.

Payment Date	Interest Rate	Principal Due	Interest Due	Total Payment
11/1/06	I\ale	Due	\$148 939 38	\$148 939 68

Note 7 - Deferred Compensation Plan

The Library matches one half of the cost of an annuity of each full-time employee's gross wages up to a maximum of 5%. The total amount paid by the Library during the fiscal year ended September 30, 2006, was \$5,005.48.

NOTES TO FINANCIAL STATEMENTS September 30, 2006

Note 8 - Pension Plan

The Library does not have a pension plan.

Note 9 - Risk Management

The Library is exposed to various risks of loss related to property loss, torts, errors, omissions, and employee injuries (workers' compensation). The Library has purchased commercial insurance for property loss, torts and workers' compensation claims. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

BUDGETARY COMPARISON SCHEDULE – GENERAL FUND Year ended September 30, 2006

AUDIT COMMUNICATION AND REPORT OF COMMENTS AND RECOMMENDATIONS

October 27, 2006

To the Library Board Dexter District Library Washtenaw County, Michigan

We have audited the financial statements of the Dexter District Library for the year ended September 30, 2006. As required by auditing standards generally accepted in the United States, the independent auditor is required to make several communications to the governing body having oversight responsibility for the audit. The purpose of this communication is to provide you with additional information regarding the scope and results of our audit that may assist you with your oversight responsibilities of the financial reporting process for which management is responsible.

$\frac{\text{AUDITOR'S RESPONSIBILITY UNDER AUDITING STANDARDS GENERALLY ACCEPTED IN THE UNITED}{\text{STATES}}$

We conducted our audit of the financial statements of the Dexter District Library in accordance with auditing standards generally accepted in the United States. The following paragraph explains our responsibilities under those standards.

Management has the responsibility for adopting sound accounting policies, for maintaining an adequate and effective system of accounts, for the safeguarding of assets, and for devising an internal control structure that will, among other things, help assure the proper recording of transactions. The transactions that should be reflected in the accounts and in the financial statements are matters within the direct knowledge and control of management. Our knowledge of such transactions is limited to that acquired through our audit. Accordingly, the fairness of representations made through the financial statements is an implicit and integral part of management's accounts and records. However, our responsibility for the financial statements is confined to the expression of an opinion on them. The financial statements remain the responsibility of management.

The concept of materiality is inherent in the work of an independent auditor. An auditor places greater emphasis on those items that have, on a relative basis, more importance to the financial statements and greater possibilities of material error than those items of lesser importance or those in which the possibility of material error is remote.

For this purpose, materiality has been defined as "the magnitude of an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission or misstatement."

An independent auditor's objective in an audit is to obtain sufficient competent evidential matter to provide a reasonable basis for forming an opinion on the financial statements. In doing so, the auditor must work within economic limits; the opinion, to be economically useful, must be formed within a reasonable length of time and at reasonable cost. That is why an auditor's work is based on selected tests rather than an attempt to verify all transactions. Since evidence is examined on a test basis only, an audit provides only reasonable assurance, rather than absolute assurance, that financial statements are free of material misstatement. Thus, there is a risk that audited financial statements may contain undiscovered material errors or fraud. The existence of that risk is implicit in the phrase in the audit report, "in our opinion."

 To the Library Board Dexter District Library Washtenaw County, Michigan

In the audit process, we gain an understanding of the internal control structure of an entity for the purpose of assisting in determining the nature, timing, and extent of audit testing. Our understanding is obtained by inquiry of management, testing transactions, and observation and review of documents and records. The amount of work done is not sufficient to provide a basis for an opinion on the adequacy of the internal control structure.

SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are described in Note 1 to the financial statements.

OTHER COMMUNICATIONS

Auditing standards call for us to inform you of other significant issues such as, but not limited to, 1) Accounting estimates that are particularly sensitive because of their significance to the financial statements or because of the possibility that future events affecting them may differ markedly from management's current judgments; 2) Significant audit adjustments that may not have been detected except through the auditing procedures we performed; 3) Disagreements with management regarding the scope of the audit or application of accounting principles; 4) Consultation with other accountants; 5) Major issues discussed with management prior to retention; and 6) Difficulties encountered in performing the audit.

We have no significant issues, regarding these matters, to report to you at this time. Audit adjustments were minimal, and are available to review.

COMMENTS AND RECOMMENDATION REGARDING INTERNAL CONTROLS/ COMPLIANCE/ EFFICIENCY

Our procedures disclosed the following conditions that we would like to bring to your attention:

SEGREGATION OF DUTIES

A separation of duties between persons who authorize transactions and persons who have control over the related assets does not always exist.

The least desirable accounting system is one in which an employee is responsible for executing the transaction and then recording the transaction from its origin to its ultimate posting in the General Ledger. This increases the likelihood that intentional or unintentional errors will go undetected. In most cases, adequate segregation of duties substantially increases control over errors without duplication of effort.

We understand that due to the size of needed staff, a proper segregation of duties may be impractical and the "cost to benefit" relationship may not justify the addition of accounting staff to accomplish the desired segregation.

These conditions were considered in determining the nature, timing and extent of the audit tests to be applied in our audit of the Library's financial statements and this communication of these matters does not affect our report on the Library's financial statements, dated September 30, 2006.

SUMMARY

We welcome any questions you may have regarding the foregoing comments and we would be happy to discuss any of these or other questions that you might have at your convenience.

Sincerely,

CAMPBELL, KUSTERER & CO., P.C.
